

Supplementary Record Chart for the Administration of Rivastigmine Patches

Patient Name		Date of Birth		NHS No			
Applying rivastigmine transdermal patch Before applying a patch, make sure the skin is: <ul style="list-style-type: none"> • clean, dry and relatively hairless • free of any powder, oil, moisturiser or lotion that could keep the patch from sticking skin properly • free of cuts, rashes, scars and/or irritations 			Carefully remove any patch BEFORE applying a new one and document removal and application Apply only one patch per day to one of the following sites, as shown in the table <ul style="list-style-type: none"> • left or right upper arm • left or right upper chest (avoid breast) • left or right upper back • left or right lower back 				
Do not apply a new patch to that same area of skin twice within 14 days Start on day one. If the patient has a patch on that site, use the site indicated for the following day							
Follow the sites by each numbered day entering the date, your name and signature for each patch removed and applied. Each arrow indicates which site of the location the patch should be placed. The Medicines Administration Record Chart (MAR) must also be annotated with the appropriate variant code
