

Supplementary Record Chart for the Administration of Transtec Patches

Patient Name		Date of Birth		NHS No	
--------------	--	---------------	--	--------	--

<p>Applying Transtec transdermal patch</p> <p>Before applying a patch, make sure the skin is:</p> <ul style="list-style-type: none"> • non-irritated, clean, dry, hairless (not shaved), scarless and flat • free of any powder, oil, moisturiser or lotion that could keep the patch from sticking skin properly 	<p>Carefully remove any patch BEFORE applying a new one and document removal and application</p> <p>Apply up to two patches immediately after removal from the sachet every 4 days to one of the following sites</p> <ul style="list-style-type: none"> • left or right upper back • left or right chest below the collar-bone <p>The patch should be pressed firmly in place with the palm of the hand for approximately 30 seconds</p>
--	---

Checking- The patch site should be checked daily and an appropriate variant code marked on the chart to indicate either

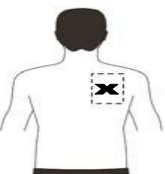

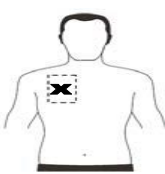

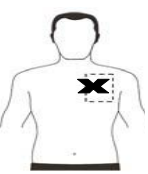

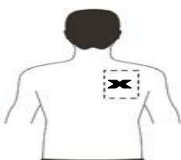

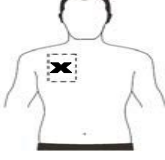

- patch in situ
- patch not in situ

Missing patches must be investigated and actioned, including re-prescribing

Do not apply a new patch to that same area of skin twice within ONE week

Start on the first dose area. If the patient has a patch on that site, use the site indicated for the following dose area

Follow the sites by each numbered dose area entering the date, your name and signature for each patch removed and applied. Each cross indicates which site of the location the patch should be placed. The Medicines Administration Record Chart (MAR) must also be annotated with the appropriate variant code
