1. INTRODUCTION

This Standard Operating Procedure (SOP) has been developed to guide the practice of staff working in Humber Teaching NHS Foundation Trust Primary Care services and ensure a robust and standardised induction process which is consistent safe and effective.

2. SCOPE

This SOP will be used across all Primary Care services within Humber Teaching NHS Foundation Trust. It includes medical, registered and non-registered staff who are permanent, temporary, bank, agency/locum or Primary Care Network staff on commencement of working within Primary Care.

3. DUTIES AND RESPONSIBILITIES

GP Clinical Forum

Develop, approve, implement and review the effectiveness of this SOP.

Service Managers, Matrons and Clinical Leads

Review and update this SOP.

Ensure dissemination and implementation of this SOP.

4. PROCEDURES

4.1. Permanent Staff

- Complete Skills Profile Analysis at first probation review meeting or one to one and plan training request.
- Follow Probation Policy Probationary Policy.pdf (humber.nhs.uk)
- Complete Primary Care Permanent Staff New Starters Checklist (Appendix 1)
- Complete Workplace Induction Checklist https://intranet.humber.nhs.uk/Forms/G-l/Induction%20Checklist%20Template.docx

4.2. Evidence of Clinical Skills and Competencies

- Clinical and live supervision and use of the Trust approved competency document within the Clinical Competency Framework (humber.nhs.uk)
- Locum/Agency and Bank Staff Complete the Bank/Locum/Agency Checklist (Appendix2)
- Complete Guidance for locums and new Doctors (Appendix 3)

•	Lone working and decision-making accountability			
•	Explain access to Occupational Health Services and Staff Support	Required		
	р			
First \	Week	Signed off On Trust Induction	Date Completed	Initials
	ning – patient consent where/how 3rd party consent recorded			
Carry c	out meeting with infection control lead and hand wash audit			
Carry c	out ESR Training			
Carry c	out Emergency Drugs/Defib/Nebuliser training			
Join sa	fety huddles every day to meet clinical team			
	initial training plan			
	ractice Risk Assessment Folder and sign.			
Recept	ion/admin 'Training plan' TNA – checklist to sign off			
	Month	Signed off On Trust Induction	Date Completed	Initials
Systmo	One Training – attend N3i training			<u> </u>

Book 8 weekly 121's after initial 4 weeks		
Carry out overview Sessions with team members		
Carry out training on Datix/CQC Board/Care Navigation/QOF		
Attend Humber Induction		
Complete ESR/Mandatory training		
Follow initial training plan		

Administrative Staff who are new to Primary Care – Following the "Patient Journey"	Signed off On Trust Induction	Date Completed	Initials
 Patient Registration How patients apply to register at a practice (practice Boundaries etc) 			
Registering a patientPitfalls and things to look out for when registering a patient.			
Lloyd George Records			
What is a Lloyd George Record			
Where is it stored			
What is it for – Discuss electronic records			
Patient Amendments			
Change of addresses			
Changes of names – proof			
Changes to DOB - Proof			
Patient Appointments			
What services do we provide?			
 'Who Does What' – which clinician can see which patients 			
Care Navigation			
 How does a patient book an appointment – online/NHS App/E- consult 			
 Where are the appointments – appointment ledger 			
 Where are Pending/Current/Past appointments shown in patients records 			
Prescriptions			
 How is medication recorded in a patients record – Acute and Repeat 			
 How does a patient request medication – online/Email/In Person 			
 Where does the prescription go, once created – EPS/FP10 			
Nominated Pharmacy			
 Re-authorising Prescriptions 			
Secondary Care Prescriptions			
Prescription History			
Referrals			
 How are these managed 			
Who manages these?			
 How are they requested – E-Referral, Forms etc 			
 Where are they filed in the patient record? 			

Letters	and Communications		
•	Incoming Letters/Scanning/Document Workflow Scanning		
•	Outgoing Letters		
	Outgoing Letters		
Sickno	tes (MED3's)		
•	Where are they filed in patients' records?		
•	Who can authorise these?		
•	How are they sent to the patient (post, ACCURX etc)		
Pathol	ogy Results		
•	Where are they filed in patients' records?		
•	How do they happen – ICE requesting and pathology inbox back to		
	practice		
Online	Services		
•	What are these – Appointments/Scripts/Medical Record Viewing etc		
Sharing	g Preferences		
•	What does this mean		
•	Share In/Share Out		
SMS M	lessaging		
•	What do we use this for?		
•	How do you know if patient is signed up for this?		
SCR - S	Summary Care Record		
•	Who is the information shared with?		
•	Basic Information share		
•	Additional information share		
Vaccin	ations		
•	All Vaccinations - Where are vaccinations shown in patient record		
•	Childhood Vaccinations		
	O How do children receive an invite?		
Deaths			
•	How do we manage deaths		
•	What happens to the patient records once decease (deductions)		
•	Where does the Lloyd George Records go?

Getting Started

Computer password and login:

If you do not have your own desktop login then you will need to use the below details:

User account - Generic.Locum

Password -

NHS mail account -

NHS mail password -

Where is the panic button?

In Room:

Panic Button on SystmOne: Control, Shift and Enter

Setting up your Clinical Tree:

This is so that clinicians have access to the electronic referral templates.

On SystmOne – go to user, user preferences, patient record folder, tree configuration, click on new tree – Clinicians, click OK.

This should then show the blue xx – all templates under Templates. Click on this to open up templates. Click on plain blue square on the left, go to GP referrals to open and this will open all the relevant tabs for the various referral forms.

If a referral does not require a form, then a referral letter should be typed on a task and sent to Secretaries.

Any queries speak to a Secretary.

Prescriptions:

See the Prescription Clerks* to sign for supply of blank prescriptions. Please note that these need to be returned to the Prescription Clerks on completion of your clinic. There is a HERPC button on the SystmOne tool bar that can be used to access the local formularies and relevant guidelines.

Repeat prescribing:

How much notice do patients need to give for prescription requests?

7 days to give the surgery time to do the prescription and the pharmacy time to dispense it. Please send by EPS where possible. For patients who are eligible (see the electronic repeat dispensing SOP), set up as electronic repeat dispensing.

How to summon patients:

Please call them from the waiting area.

Call board?

Can patients book double appointments? (e.g. for gynae examinations etc.)

Yes

Where are the patient advice leaflets kept?

Ask the patient to come to Reception

^{*} Please be aware, not all practices have designated Prescription Clerks, in which case, please speak to the Assistant Practice Manager to confirm the process.

Ordering Investigations

Please complete the relevant form (enclosed) and give to patient for the following:

GP/ANP review appointment, blood test appointment, ECG appointment, nurse appointments.

IUD Fitting, Depo Contraceptive Inj, Nexplanon:

Send patient to Reception to be given number for patient to contact.

Spirometry:

This can be done during a clinic appointment or patients can be referred to the in-house respiratory nurse.

Dopplers:

Give form to patient to take to Reception to make appointment with Practice Nurse.

X-ray / MRI / Ultrasound / CT referrals:

Complete the electronic referral form from the Templates. (**No** need to print or sign) Send task to Secretaries when done.

Direct Access Endoscopy: Secretaries have forms for both Hull and York.

CONTACT NUMBERS FOR LOCAL HOSPITALS:

HULL HRI and CHH - 01482 875875 (MAIN SWITCHBOARD) YORK DISTRICT - 01904 631313 (MAIN SWITCHBOARD)

Emergency Admissions

Procedure – (e.g. ring hospital switchboard/speak to Bed Bureau/doctor on call for specialty)

Crisis Team (Mental Health):

Contact Rapid Response Team 01482 301701

DVT Clinic:

Hull Westbourne NHS Centre - GP to phone to discuss 01482 335597

Goole - contact Ward 3 at Goole & District Hospital on 01724 290039

Fill in electronic referral form in Templates and send task to Secretaries.

Early Pregnancy Assessment Unit:

Hull 01482 608787 or York 01904 726489

Eve Clinic:

For emergencies speak to the nurse practitioner on Hull 01482 816658 or York 01904 726272

Rapid Access Chest Pain Clinic:

Either Hull (please send patient to Reception for CAB) or York – please complete a referral form for Secretaries, check electronic templates.

TIA Clinic:

Either Hull or York – please complete referral form for Secretaries.

How to arrange the following:

Counselling/IAPT/Talking Therapies:

Patients can self-refer. Please give leaflet to patient.

Diabetic Clinic and newly diagnosed diabetics:

Send task t in Admin, to arrange appointment.

Dietician:

Referral form for completion on the electronic templates and send task to Secretaries.

GUM clinic:

Patient to self-refer to Conifer 01482 247111 or Monkgate Health Centre, York 01904 721111

Midwife:

For antenatal care, newly-confirmed pregnancy patient to ring Hull 01482 605304 or York 01904 721490

Physiotherapy:

Patients can self-refer by calling 01377 208300 (if under 18, to complete physio referral form and hand to secretaries).

For MSK, send patients to Reception for CAB referral to be done. Complete electronic referral form and send task to Secretaries.

Community Physiotherapy:

Complete electronic referral form and send task to Secretaries.

Podiatry:

Complete referral form and send task to Secretaries.

Smoking Cessation Counselling:

Self-referral via Healthier Futures-East Riding 03302 369102 or via Healthier Futures website.

Termination of pregnancy:

Via CHCP. Please give a card to patient to self-refer. Patients can self- refer by calling 01482 336338.

REFERRALS

All referral forms and 2WW forms are all in electronic templates on SystmOne. Please ask one of the admin team if you have any queries.

All referrals including 2WW referrals can be booked on Choose and Book (CAB) so please send patient to Reception with the CAB request form (enclosed) for Reception to arrange their appointment.

All 2WW referrals are to be raised and completed on the day of the consultation or in exceptional circumstances within 48 hours of the patient being identified as requiring a 2ww referral.

Bone Densitometry/DEXA referral (Hull):

Form to complete please and hand to Secretaries.

Cardiology QED (Quick and Early Diagnosis) Heart Failure referral form (Hull):

Community Respiratory Team:

Form to complete please and send task to Secretaries.

Drug and Alcohol Service:

Contact East Riding Partnership – Hull 01482 336675 / hnf-tr.erphull@nhs.net Patients can self-refer by calling 01482 336675.

Exercise on Prescription:

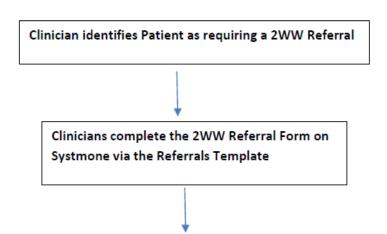

Form to complete please, patient to sign and choose either Pocklington or Beverley – hand to Secretaries.

Orthotics:

HRI – please complete form and hand to Secretaries.

2WW Referral Management Process Flowchart

On saving the record, an automatic Task is sent to the Admin/Secretarial Staff group to action.

Task is set to due "Today" and will display in RED Text with a RED Flag against it in the Task list.

Secretary/Admin Staff pick up Urgent Task and manage the Referral using the ERS System which includes:-

- Creating a UBRN (Unique Booking Number)
- Attaching the completed Referral Form
- · Selecting and Booking an Appointment
- Contacting Patient to advise of appointment details

N.B. Should an appointment not be available on the ERS system, the patient is placed in a holding queue and the hospital will allocate appointment as and when they become available and contact the patient. The GP practice Admin/Secretary staff managing the referral will advise the patient they are not able to book an appointment and advises the patient to contact the hospital direct if they have not heard anything within 10 days.

Assessment Unit Admissions and Emergency Outpatients

Ambulatory Care Pathway – Information for GPs

Ambulatory Care at HEY

- Purpose-built facility
- 4 x treatment bays
- 4 x clinic rooms
- 2 x triage rooms
- Large reception area
- Dedicated staffing both medical and nursing teams

Eligibility Criteria – NOT disease-specific eligibility criteria

The patient must be 'ambulant'

- mobilise without assistance
- there is no significant deterioration in mobility so as to preclude safe discharge
- no clinical need to be cared for in a bed

Other criteria

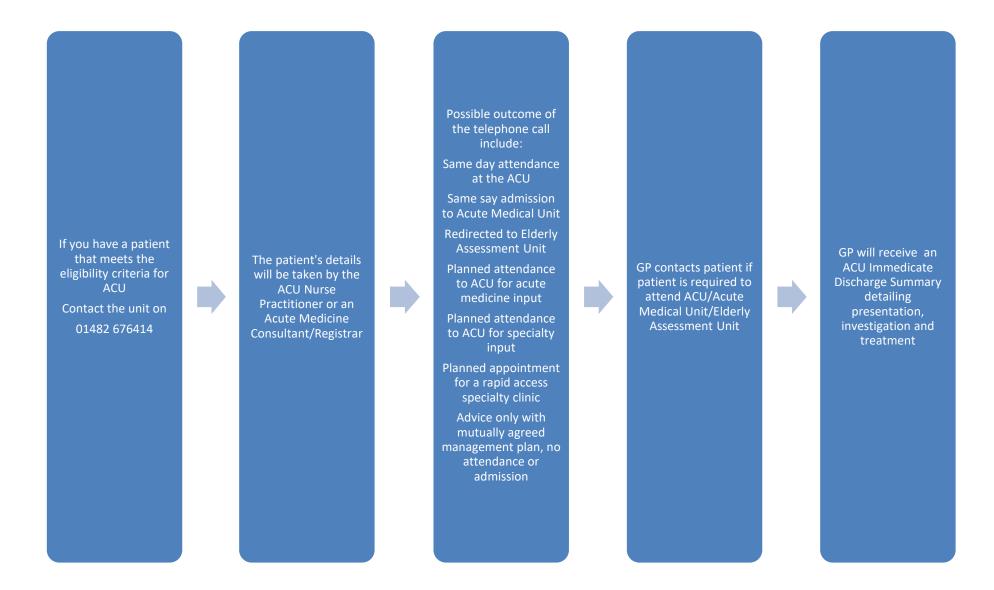

- expected to be discharged on the same day
- no known barriers to discharge

ACU Function

- Diagnostic exclusion, e.g. VTE/ACS
- Time-limited assessment, observation and treatment, e.g. asthma, pneumonia, COPD, GI bleed (low Blatchford).
- Specific scheduled treatments, e.g. transfusion for chronic anaemia
- Specific disease pathways: for conditions which may be managed on an ambulatory basis: Cellulitis, VTE, AF, CCF, Anaemia, Pyelonephritis

ACU Opening

Monday-Friday 8am-10pm (last admission 9pm) Saturday-Sunday 8am-8pm (last admission 6pm)

Assessment Unit Admissions and Emergency Outpatients Acute Medical Unit (AMU) – Information for GPs

Acute Medical Unit at HEY

• This is a 45-bed area operating a 24 hours, seven days a week. The target is that all patients are either transferred to a speciality/base ward or discharged within 12 hours of admission.

Eligibility Criteria

Patients presenting with acute medical conditions that do not have frailty needs or who could suitably be managed in the Ambulatory Care Unit.

AMU Functions

- The unit provide a rapid assessment of acute medical patients presenting either via the Emergency Department or following a referral from the GP.
- The redesign of acute medical pathway has enabled stable and ambulant patients to be managed in the Ambulatory Care Unit (ACU) leaving the Acute Medical Unit (AMU) for the acutely unwell patient with complex needs unable to be managed outside of the traditional hospital setting.

Admissions

- Between 8am and 10pm the GP should contact the Ambulatory Care Unit (01482 676414) where the call will be directed to the senior nurse. He/she will advise on where to direct the patient, either ACU or AMU depending on the presenting condition and status of the patient.
- Out of these hours the GP should contact the Acute Medical Unit via the Bed Bureau (01482 675801) where the call will be directed to the senior nurse.
- A clinician may be available should the GP require a clinician-to-clinician discussion.
- The GP will organise transfer of patients to the AMU
